ENFORCEMENT OF CIVIL LIABILITIES

The Company is a Public Limited (Listed) Company under the laws of India and all the Directors and all Executive Officers are residents of India. It may not be possible or may be difficult for investors to affect service of process upon the Company or these other persons outside India or to enforce against them in courts in India, judgments obtained in courts outside India. India is not a party to any international treaty in relation to the automatic recognition or enforcement of foreign judgments.

However, recognition and enforcement of foreign judgments is provided for under Sections 13, 14 and 44A of the Code of Civil Procedure, 1908, as amended (the “**Civil Procedure Code**”). Section 44A of the Civil Procedure Code provides that where a certified copy of a decree of any superior court (within the meaning of that section) in any country or territory outside India which the Government of India has by notification declared to be a reciprocating territory, is filed before a district court in India, such decree may be executed in India as if the decree has been rendered by a district court in India. Section 44A of the Civil Procedure Code is applicable only to monetary decrees or judgments not being in the nature of amounts payable in respect of taxes or other charges of a similar nature or in respect of fines or other penalties. Section 44A of the Civil Procedure Code does not apply to arbitration awards even if such awards are enforceable as a decree or judgment. Among others, the United Kingdom, Singapore, Hong Kong and the United Arab Emirates have been declared by the Government of India to be reciprocating territories within the meaning of Section 44A of the Civil Procedure Code.

The United States has not been declared by the Government of India to be a reciprocating territory for the purposes of Section 44A of the Civil Procedure Code. Under Section 14 of the Civil Procedure Code, an Indian court shall, on production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction unless the contrary appears on the record; but such presumption may be displaced by proving want of jurisdiction.

A judgment of a court in any non-reciprocating territory, such as the United States, may be enforced in India only by a suit upon the judgment subject to Section 13 of the Civil Procedure Code, and not by proceedings in execution. Section 13 of the Civil Procedure Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), states that a foreign judgment shall be conclusive as to any matter directly adjudicated upon between the same parties or between parties under whom they or any of them claim litigating under the same title except where:

- The judgment has not been pronounced by a court of competent jurisdiction;
- The judgment has not been given on the merits of the case;
- The judgment appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable;
- The proceedings in which the judgment was obtained are opposed to natural justice;
- The judgment has been obtained by fraud; and/or
- The judgment sustains a claim founded on a breach of any law in force in India.

A suit to enforce a foreign judgment must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. In addition, it is unlikely that an Indian court would enforce foreign judgments if it considered the amount of damages awarded as excessive or inconsistent with public policy or if the judgments are in breach of or contrary to Indian law. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the Reserve Bank of India to repatriate any amount recovered pursuant to execution of such judgment. Any judgment in a foreign currency would be converted into Rupees on the date of such judgment and not on the date of payment and any such amount may be subject to income tax in accordance with applicable laws. The Company cannot predict whether a suit brought in an Indian court will be disposed of in a timely manner or be subject to considerable delays.

1. Summary of Industry

Over the years, the global fasteners industry has transformed into a competitive sector. Several small and large-scale manufacturing companies are operating across various countries, including India.

The industrial demand is expected to increase at around 5.5 percent annually. Equally, the Indian fastener industry is also estimated to maintain the growth trajectory in the coming years.

The major reason for this progress of the Fastener industry can be attributed to the increased focus of making India as a manufacturing hub under the “Make in India” project of the Government of India, increasing number of construction activities and growing automobile manufacturing in India and other South Asian countries and expansion/modernization of the infrastructure including Railways. The automobile industry is one of the largest consumers of fasteners, accounting for over 50% percent market share. Emergence of India as a global hub for manufacturing automotive components and fasteners with high export commitments have also made this industry move north.

Made from steel, stainless steel, brass, aluminum, etc., Fasteners are used to join two or more objects together by using nuts, bolts, washers, screws and other products. The Indian fasteners market is classified on the basis of application, product type and the organization of the market. The Indian Fastener market is fragmented and with all round Industrial development, the segment is witnessing great opportunities, challenges, scope and offers promising growth.

The fastener industry’s largest market is accounted by Asia-Pacific with a major share of fasteners manufactured globally. The market growth is attributable to the growing construction activities and manufacturing of automobiles in India and China. A wide range of fasteners are manufactured in the Indian market, which include exhaust bolts, balance wheel bolts, standard hexagon screws/bolts, socket head cap screws, socket shoulder screws, weld nuts, square nuts, hexagon nuts, self-tapping screws, and others. High-tensile fasteners are mainly used in the construction and engineering sector, whereas mild steel fasteners are used in manufacturing automobiles.

With help from Government of India’s ‘Make in India’ initiative, the Indian manufacturing sector is expected to generate huge demand for industrial fasteners. The Indian industrial fasteners market is divided into three sections: application, product type, and market organization. The Indian automobile industry is anticipated to be the largest consumer of industrial fasteners, accounting for a significant portion of the market.

The major reason for this progress can be attributed to the increasing number of construction activities and growing automobile manufacturing in South Asian countries. The auto industry is the largest consumer of fasteners, accounting for around 75 percent market share.

INTERNAL RISK FACTORS:

1. MFL's success depends on its ability to identify and respond to constantly changing customer demands and preferences and changing technologies.

In order to stay competitive, MFL must respond to changing trends in customer demands and preferences either in India or overseas. MFL's success is dependent on its ability to anticipate accurately, identify and quickly respond to these trends. MFL should ensure that their sales team generate enthusiasm and respond with extra efforts in addressing our customers' needs in a timely fashion. If any of these risks pertaining to changes in demands/preference/technology materialize, it may have a material adverse effect on MFL's business, cash flows, results of operations, financial condition and prospects.

2. *MFL operations are subject to risks arising from foreign exchange rate fluctuations, which could adversely affect the financial results of our Company.*

Most of our revenue and some costs are either linked to or denominated in Foreign Currencies. We maintain our accounts and report our financial results in Indian Rupees (INR). As such, we are exposed to risks relating to foreign exchange rate fluctuations. Uncertainties in the global financial markets and other geo political reasons may have an adverse impact on the exchange rate between INR and other currencies. The exchange rate between INR and other currencies are variable and may continue to remain volatile in the future depending upon the foreign exchange reserve position of India. Fluctuations in the exchange rates may have a serious impact on the revenues from our export business as a significant portion of our revenue comes from exports. Any appreciation of the INR against other currencies may lead to reduction in the realization of our revenues. Accordingly, volatility in the exchange rate would adversely affect the financial results of our Company.

3. *Europe is our significant business market, and our current business and future growth could be materially and adversely affected by poor economic conditions in Europe.*

Europe is a significant market for our Exports, accounting for about 45% of our total revenue in each of the fiscal year 2020 and 2021. Exports have always remained the back bone of the Company and have constituted over two-thirds of the sales revenues in the last few years. Accordingly, we are particularly prone to the overall health of the economy as well as any geopolitical factors and other factors in the European Union countries. The market in this region may be affected by a number of factors outside our control, including local, regional, political and general economic conditions, changes in demand and supply for products comparable to those that we develop, any pandemic like conditions which might force restrictions and lockdowns and changes in Government regulations. A slowdown in the business ecosystem could adversely affect our business and results of operations and future growth of the Company.

4. *MFL is dependent on our senior management including our Promoters and a number of key personnel and the loss of, or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.*

Our performance depends significantly on our senior management, including our Promoters, who are educated and have several years of experience in the industry in which we operate and whose contribution has been crucial to the growth of our business. We believe that the inputs and experience of our senior management and key managerial personnel are valuable for the development of business and operations and the strategic directions adopted by our Company. We cannot assure you that we will be able to retain such persons or find adequate suitable replacements in a timely manner, or at all. A limited number of persons exist with the requisite experience and skills to serve in our senior management positions. In addition, we may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. Moreover, along with our steady growth and business expansion, we need to employ, train and retain additional suitable skilled and qualified management and employees from a wider geographical area. If we cannot attract and retain suitable personnel, our business and future growth may be materially and adversely affected.

5. *MFL's ability to pay dividends in the future will depend on our future earnings, cash flows, working capital requirements, capital expenditures and financial condition. Investors of Rights Equity Shares are only entitled to dividend in proportion to the amount paid up and the voting rights shall also be proportional to such investor's share of the paid-up equity capital of our Company.*

Our Company has declared and has paid dividend uninterruptedly for last 17 years. The amount of future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, the terms and conditions of our Company's indebtedness and capital expenditures. There can be no assurance that our Company will be able to pay dividends in the future.

6. *The unexpected loss, shutdown or slowdown of operations at any of our facilities could have a material adverse effect on MFL's results of operations and financial condition.*

Our facilities are subject to operating risks, such as breakdown or failure of equipment, power supply interruptions, facility obsolescence or disrepair, technological changes, labour disputes, natural disasters and industrial accidents, to name some of them. The occurrence of any of these risks could adversely affect our operations by causing production at one or more facilities to shut down or slowdown. No assurance can be given that one or more of the factors mentioned above will not occur, which could have a material adverse effect on our results of operations and financial condition.

7. *Availability of skilled and specialized labour can affect performance of MFL.*

Due to advancement of technology and competitive environment, skilled and specialized labour are necessary to have in any

organization. The shortages of relevant sufficiently skilled people available in the Country can affect the performance of the Company.

8. Resistance to change and fixed mind sets of the Management and employees can lead to ineffective adaptation of new technologies, processes and lean manufacturing.

The fastener industry as well as Engineering and other allied industries is characterized by frequent advancements in technology. To meet our clients' needs and also to keep pace with our competitors, we regularly update existing technology and acquire or develop new technology for our manufacturing activities. For this, we need skilled labour and skilled executives and other senior management members for the same. In addition to the above, rapid and frequent advancements in technology and market demand changes can often render existing technologies and equipment redundant and obsolete which would require substantial new capital expenditures and/or write-downs of assets. The existing manpower is regularly assessed on their skill matrix and training is imparted to them after identifying the gaps. Our failure to anticipate or to respond adequately to advancements in technology, changes in market demand or client requirements could adversely affect our business and financial condition.

9. The threat perception arising out of 3D printing/additive manufacturing cannot be ignored in the years to come.

Additive manufacturing (AM), also known as 3D printing, is a transformative approach to industrial production that enables the creation of lighter, stronger parts and systems. If we stay oblivious to the same and do not adapt such new approach(es), our business, future growth & competitive abilities may be adversely affected.

EXTERNAL RISKS:

10. The impact of the COVID-19 pandemic worldwide and on MFL's business and operations is uncertain and cannot be predicted.

In late 2019, the COVID-19 disease, commonly known as "novel coronavirus", was first reported in Wuhan, China. On January 30, 2020, the World Health Organization declared the COVID-19 outbreak a "Public Health Emergency of International Concern" and on March 11, 2020 it was declared a pandemic.

Several countries' governments including India and numerous companies have imposed increasingly stringent restrictions to help avoid, or slow down, the spreading of COVID-19, including, for example, restrictions on international and local travel, public gatherings and participation in meetings, as well as closures of non-essential services, universities, schools, stores, restaurants and other key service providers, with some countries imposing strict curfews. These measures have led to a significant decline in economic activities in India and abroad.

COVID - 19 pandemic has caused serious disruption on the global economic and business environment. COVID 19 has significant impact on business operations of our Company. There is a huge uncertainty with regard to its impact which cannot be reasonably determined at this stage. Based on the current indicators of future economic conditions, the Company estimates to recover the carrying amount of its assets. The Company has adequate liquidity to discharge its obligations. These estimates are subject to uncertainty and may be affected by the severity and duration of the pandemic. The Company is continuously monitoring any material changes in future economic conditions.

11. MFL's business is substantially affected by prevailing economic, political and other prevailing conditions in India.

Our Company is incorporated in India and we derive a reasonable portion of our revenues in India. In addition, our assets and employees are also located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Consequently, our performance and liquidity of our Equity Shares may be affected by changes in foreign exchange rates and controls, interest rates, Government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

In recent years, the successive Indian governments have generally pursued a course of economic liberalization and deregulation aimed at accelerating the pace of economic growth and development. This includes liberalizing rules and limits for foreign direct investment in a number of important sectors of the Indian economy including infrastructure, railways, services, pharmaceuticals and insurance. In addition, the current Indian government has pursued a number of other economic reforms, including the introduction of a goods and services tax, increased infrastructure spending and a new Insolvency and Bankruptcy Code.

A significant change in India's economic liberalization and deregulation policies, in particular, those relating to the businesses in which we operate, could disrupt business and economic conditions in India generally and our business in particular.

A change in the Government's policy on tariffs, direct and indirect taxation and fiscal or other incentives could adversely affect MFL's business.

Our profitability is also significantly dependent on the policies of the central and state governments in India relating to various direct and indirect taxes (including sales tax, goods and service tax and income tax), duties and levies (including excise duties and import duties) and fiscal or other incentives or schemes. Any adverse change in policies relating to such taxes, duties or incentives could affect our profitability.

12. MFL operations are susceptible to volatility of prices of our products and the loss of customers can have a bearing on the operations of the Company.

Prices of our products are subject to fluctuation, primarily depending upon prices of Steel, Oils & Lubricants, Inward and outward freight &, packing material as Direct costs, over and above many other factors like the number of producers in the region/country, their production volumes and changes in demand in the markets that we serve and many more. Volatility in price realization and loss of customers may adversely affect our profitability. Further, there is no assurance that we will be able to maintain our low cost of operations or to further reduce costs or develop new cost effective processes in the future.

13. Any terrorist attacks or social unrest and natural disasters occur in India; could adversely affect MFL's business, operations and financial condition.

Increased political instability, evidenced by the threat or occurrence of terrorist attacks, enhanced national security measures, conflicts in several regions in which we operate, strained relations arising from these conflicts and the related decline in customer confidence may hinder our ability to do business.

Natural disasters such as floods, earthquakes, famines and pandemics have in the past had a negative impact on the Indian economy, with the most recent example being the global outbreak of COVID-19. If any such event were to occur, our business could be affected due to the event itself or due to the inability to effectively manage the effects of the particular event. Potential effects include the damage to infrastructure, damage to our telecom and refinery assets and the loss of business continuity or business information. In the event that our facilities are affected by any of these factors, our operations may be significantly interrupted, which may materially and adversely affect our business, financial condition and results of operations.

14. MFL foresees competition from existing and future indigenous manufacturers of Industrial High Tensile Fasteners which may have adverse effect on our business, prospects, results of operations and financial condition.

We operate in a competitive business environment. The fastener segment in which our company is currently operating and further expanding into is constantly evolving with capacity additions and addition of new suppliers. Growing competition may subject us to pricing pressures and require us to reduce the prices of our products and services in order to retain or attract customers, which may have a material adverse effect on our revenues and margins. Further, several of our competitors whether in India or overseas are larger international and national companies and have access to greater resources, wider geographical reach, broader product ranges or may be able to develop or acquire technology or partner with innovators or customers at terms which are not presently feasible for us, due to our current scale of operations. Further, they may succeed in developing products that are far more effective, more technologically advanced, more popular or cheaper than our products. Any of these factors may have a material adverse effect on our business, prospects, results of operations and financial condition.

RISKS RELATING TO THE ISSUE AND THE RIGHTS EQUITY SHARES

1. *Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, the Abridged Letter of Offer, Rights Entitlement Letter and Application Form (the “Issue Materials”) to the shareholders who have provided an address in India for service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules made thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject us to fines or penalties.

2. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to long-term capital gains tax in India if Securities Transaction Tax (“STT”) is paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares, except in the case of such acquisitions where STT could not have been paid, as notified by the Government of India under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, Finance Act, 2018, taxes such long term capital gains exceeding ₹ 1.00 Lakh arising from sale of equity shares on or after April 1, 2018. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains.

As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares:

3. *Any future issuance of the Rights Equity Shares, or convertible securities or other equity linked securities by our Company may dilute your future shareholding and sales of the Rights Equity Shares by the Promoter or Promoter Group or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares, or convertible securities or other equity linked securities by our Company, may lead to dilution of your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. Any future sales of Equity Shares by the Promoter or other major shareholders of our Company may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

4. *The entitlement of Rights Equity Shares to be allotted to investors applying for Allotment in physical form, may be kept in abeyance.*

In accordance with the SEBI ICDR Regulations, the option to receive the Rights Equity Shares in physical form will not be available after a period of six months from the date of coming into force of the SEBI ICDR Regulations, i.e., May 10, 2019. Since, the Rights Equity Shares offered pursuant to this Issue will be Allotted only after May 10, 2019, the entitlement of Rights Equity Shares to be Allotted to the Applicants who have applied for Allotment of the Rights Equity Shares in physical form will be kept in abeyance in electronic mode by our Company until the Applicants provide details of their demat account particulars to the Registrar. Pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares). For further details, see the section on “Issue information” on page 121 of this Draft Letter of Offer.

5. *The Issue Price of our Rights Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.*

The Issue Price of Equity Shares may not be indicative of the market price for our Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the issue and may decline below the Issue Price. There can be no assurance that the Investors will be able to sell their Equity Shares at or above the Issue Price. The factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators such as earnings per share;
- Changes in revenue or earnings estimates or publications of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions.

6. *SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020 and January 19, 2021, streamlined the process of rights issues.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020 and January 19, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see “*Terms of the Issue*” on page 121 of this Draft Letter of Offer.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

7. *The R-WAP payment mechanism facility proposed to be used for this Issue may be exposed to risks, including risks associated with payment gateways.*

In accordance with SEBI circulars dated May 6, 2020, July 24, 2020, January 19, 2021 and April 22, 2021, a separate web based application platform, i.e., the R-WAP facility (accessible at www.skylinerta.com), has been instituted for making an Application in this Issue by resident Investors. Further, R-WAP is only an additional option and not a replacement of the ASBA process. On R-WAP, the Eligible Shareholders can access and fill the Application Form in electronic mode and make online payment using the internet banking or UPI facility from their own bank account thereat. For details, see “*Terms of the Issue*” on page number 121 of this Draft Letter of Offer. Such payment gateways and mechanisms are faced with risks such as:

- keeping information technology systems aligned and up to date with the rapidly evolving technology;
- in the payment services industries;
- scaling up technology infrastructure to meet requirements of growing volumes;
- applying risk management policy effectively to such payment mechanisms;
- keeping users’ data safe and free from security breaches; and
- effectively managing payment solutions logistics and technology infrastructure.

Further, R-WAP is a new facility which has been instituted due to challenges arising out of COVID-19 pandemic. We cannot assure you that R-WAP facility will not suffer from any unanticipated system failure or breakdown or delay, including failure on part of the payment gateway, and therefore, your Application may not be completed or rejected. These risks are indicative and any failure to manage them effectively can impair the efficacy and functioning of the payment mechanism for this Issue. Since Application process through R-WAP is different from the ASBA process, there can be no assurance that investors will not find difficulties in accessing and using the R-WAP facility.

3(b). Significant management judgment in applying accounting policies and estimation of uncertainty

While preparing the financial statements, management has made a number of judgments, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

(i) Significant management judgment

The following are significant management judgments in applying the accounting policies of the Company that have significant effect on the financial statements.

Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carry-forwards can be utilized. In addition, careful judgment is exercised in assessing the impact of any legal or economic limits or uncertainties in various tax issues.

(ii) Estimation of uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is mentioned below. Actual results may be different.

a. Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of assets including Intangible Assets.

b. Inventories

Management has carefully estimated the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by market-driven changes.

c. Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

4. Summary of accounting policies

1) Overall considerations

The financial statements have been prepared applying the significant accounting policies and measurement bases summarized below.

2) Revenue Recognition

Revenue is measured at fair value of the consideration received or receivable and net of returns, trade allowances and rebates and discount. The revenue excludes GST.

i. Sale of Products:

Revenue from sale of products is recognized when significant risks and rewards of ownership pass to the customers, as per the terms of the contract and when the economic benefits associated with the transactions will flow to the Company.

ii. Interest and Dividend Income:

Interest incomes are recognized using the effective interest method. Interest income is included in other income in the statement of profit and loss.

Dividends are recognized in the Statement of Profit and Loss only when the right to receive payment is established and it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of dividend can be reliably measured.

3) Property, plant and equipment

i. Free hold land is stated at historical cost. All other items of Property, Plant and Equipment are stated at cost of acquisition/construction less accumulated depreciation/amortization and impairment, if any. Cost includes:

- a. Purchase Price
- b. Taxes and Duties
- c. Labour cost and
- d. Directly attributable overheads incurred upto the date the asset is ready for its intended use.

However, cost excludes GST, excise duty, value added tax and service tax, to the extent credit of the duty or tax is availed of.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

ii. Component Accounting:

The component of assets are capitalized only if the life of the components vary significantly and whose cost is significant in relation to the cost of the respective asset, the life of the component in assets are determined based on technical assessment and past history of replacement of such components in the assets. The carrying amount of any component accounted for as separate asset is derecognized when replaced.

iii. Other cost:

All other repairs and maintenance cost are charged to the statement of profit and loss during the reporting period in which they are incurred.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

Profit or Losses on disposals are determined by comparing proceeds with the carrying amount. These are included in the Statement of Profit and Loss within other income/(loss).

iv. Depreciation and amortization:

- a. Depreciation is recognized on a straight line basis, over the useful life of the Property, Plant and other equipment's as prescribed under Schedule II of the Companies Act, 2013.
- b. Depreciation on tangible fixed assets is charged over the estimated useful life of the asset or part of the asset (after considering double/triple shifts) as evaluated on technical assessment on straight line method, in accordance with Part-A of Schedule II to the Companies Act, 2013.
- c. The residual value for all the above assets are retained at 5% of the cost. Residual values and useful lives are reviewed and adjusted, if appropriate, for each reporting period.
- d. On tangible fixed assets added/disposed off during the year, depreciation is charged on pro-rata basis for the period for which the asset was purchased and used.

4) Intangible assets

Intangible assets are stated at cost of acquisition net of recoverable taxes, trade discounts and rebates less accumulated amortization/depletion and impairment loss, if any. Such cost includes purchase price, borrowing costs and any cost directly attributable to bringing the assets to its working condition for the intended use. Net changes on foreign exchange contracts and adjustments arise from exchange rate variations attributable to intangible assets.

Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the entity and the cost can be measured reliably.

Gain or losses arising from derecognition of an intangible asset are measured as the differences between the net disposal proceeds and the carrying amount of the assets and are recognized in the statement of profit and loss when the assets is derecognized.

Computer software are amortized over a maximum period of 5 years.

5) Impairment

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

In respect of assets whose impairment are to be assessed with reference to other related assets and such group of assets have independent cash flows (Cash Generating Units), such assets are grouped and tested for impairment.

Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

6) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio leases with similar characteristics.

The Company's lease asset classes primarily consist of leases for Land and Buildings and Plant & Machinery. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 Leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

The Company has adopted Ind AS 116 on "Leases" with effect from April 1, 2019 using modified retrospective approach along with a transition option to recognize Right of use (ROU) asset at an amount equal to the lease liability. Accordingly, there is no impact of Ind AS 116 adoption to the retained earnings as at April 1, 2019 or the results reported for the year ended March 31, 2019.

For transition, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-of-use asset, and finance cost for interest accrued on lease liability.

7) Financial Assets, Financial Liabilities and Financial instruments

Recognition, initial measurement and derecognition:

Financial assets (other than trade receivables) and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Trade receivables are recognized at their transaction value as the same do not contain significant financing component.

The 'trade payable' is in respect of the amount due on account of goods purchased in the normal course of business. They are recognized at their transaction and services availed value as the same do not contain significant financing component.

Financial Assets Classification and subsequent measurement of financial assets:

- i. For the purpose of subsequent measurement, financial assets are classified and measured based on the entity's business model for managing the financial asset and the contractual cash flow characteristics of the financial asset at those to be measured subsequently at fair value either through other comprehensive income (Fair Value Through Other Comprehensive Income-FVTOCI)

Financial assets at Fair Value Through Other Comprehensive Income (FVTOCI)

Includes assets that are held within a business model where the objective is both collecting contractual cash flows and selling financial assets along with the contractual terms giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election to present in other comprehensive income the changes in the fair value of an investment in an equity instrument that is not held for trading. This election is made on an instrument-by instrument (i.e., share-by-share) basis.

The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

ii. Impairment of financial assets:

All financial assets are reviewed for impairment at least at each reporting date to identify whether there is any evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets.

iii. Trade receivables

An impairment loss should be regarded as incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after initial recognition (a 'loss event')

iv. Derecognition of financial assets

A financial asset is derecognized only when;

- a) The Company has transferred the rights to receive cash flows from the financial asset or
- b) The Company retains the contractual rights to receive the cash flows of the financial asset, but expects a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company examines and assesses whether it has transferred substantially all risk and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risk and rewards of ownership of the financial asset, the financial asset is derecognized, if the Company has not retained control of the financial asset. Where the company retains control of the financial asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Financial Liabilities

i. Classification, subsequent measurement and derecognition of financial liabilities

a. Classification

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortized cost. The Company's financial liabilities include borrowings, trade and other payables.

Subsequent measurement

Financial liabilities are measured subsequently at amortized cost using the effective interest method

b. Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

8) Inventories

Inventories are valued at lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale. Cost is ascertained on FIFO basis in accordance with the method of valuation prescribed by the Institute of Chartered Accountants of India.

i. Raw materials

Raw materials are valued at cost of purchase net of duties (credit availed w.r.t taxes and duties) and includes all expenses incurred in bringing the materials to location of use.

ii. Work-in-process and Finished Goods

Work-in-process and finished goods include conversion costs in addition to the landed cost of raw materials and are valued at Cost or Net Realizable Value, whichever is less.

iii. Stores and spares

Stores, spares and tools cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

9) Income Taxes

Tax expense recognized in the statement of profit or loss comprises the sum of deferred tax and current tax not recognized in other comprehensive income or directly in equity.

Calculation of current tax is based on tax rates in accordance with tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred income taxes are calculated using the Balance Sheet Approach on temporary differences between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at reporting date. Deferred taxes pertaining to items recognized in other comprehensive income (OCI) are disclosed under OCI.

Pursuant to the Taxation Laws (Amendment) Ordinance, 2019 issued on September 20, 2019, which is effective from April 1, 2019, domestic companies have the option to apply a special income tax rate under section 115BAA with effect from April 1, 2019 subject to certain conditions specified there in. The Company has exercised the above option and accordingly, it has recognized provision for income tax and remeasured its deferred tax liability for the year ended March 31, 2021 based on the lower annual effective income tax rate.

Deferred tax assets are recognized to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilized against future tax liability. This is assessed based on the Company's forecast of future earnings, excluding non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Deferred tax liabilities are generally recognized in full, although Ind AS 12 'Income Taxes' specifies some exemptions.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

10) Post-employment benefits and short-term employee benefits

i. Short term obligations:

Short term obligations are those that are expected to be settled fully within 12 months after the end of the reporting period. They are recognized up to the end of the reporting period at the amounts expected to be paid at the time of settlement.

Bonus Payable: The Company recognizes a liability and an expense for bonus. The Company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

ii. Other long term employee benefit obligations:

The liabilities for compensated absences /earned leave are not expected to be settled wholly within 12 months after end of the period in which the employees render the related service. They are, therefore, recognized and provided for at the present value of the expected future payments to be made in respect of services provided by employee upto the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurement as a result of experience adjustments and changes in actuarial assumptions are recognized in Statement of Profit & Loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii. Post-employment obligation:

The Company operates the following post-employment schemes:

- a) Defined benefit plans such as gratuity for its eligible employees
- b) Defined contribution plan such as provident fund

Gratuity obligation:

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The cost is included in employee benefit expenses in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income (net of deferred tax). They are included in retained earnings in the statement of changes in equity and in the balance sheet.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

Changes in present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in the Statement of Profit or Loss or service cost.

Provident Fund:

The eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees salary. The provident fund contributions are made to EPFO. The Company is liable for annual contributions and any shortfall in the fund assets based on the Government specified minimum rates of return and recognizes such contributions and shortfall, if any, as an expense in the year in which it is incurred.

During the year, however, there was no short fall in the fund asset or in the specified minimum rate of return.

11) Provisions and contingent liabilities

i. Provisions:

A Provision is recorded when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

Provisions are evaluated at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. No discounting of provision amount has been made as time value of money is not material.

Contingent liabilities:

Whenever there is possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability are considered as contingent liability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

ii. Contingent Assets:

The Company does not recognize contingent assets. If it is virtually certain then they will be recognized as asset. These are assessed continually to ensure that the developments are appropriately disclosed in the financial statements.

12) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares). For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are considered for the effects of all dilutive potential equity shares. There

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

is no diluted earnings per share as there are no dilutive potential equity share.

13) Cash and Cash equivalents and Cash Flow Statement

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments maturing within three months from the date of acquisition and which are readily convertible into cash and which are subject to only an insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby profit/(loss) before tax is appropriately classified for the effects of transactions of non-cash nature and any deferrals or accruals of past or future receipts or payments. In the cash flow statement, cash and cash equivalents include cash in hand, cheques on hand, balances with banks in current accounts and other short-term highly liquid investments with original maturities of three months or less.

14) Segment reporting

The Company is engaged in manufacture and sale of cold and hot forged fasteners, precision machined components and other parts which by and large have applications in Automobile Industry and thus the company has only one reportable segment.

15) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred under finance costs. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to interest costs.

27.1 (b)(i) Defined benefits plans - Gratuity

The gratuity liability arises on retirement, withdrawal, resignation and death of an employee. The aforesaid liability is calculated on the basis of fifteen days salary (i.e. last drawn basic salary) for each completed year of service subject to vesting period of 5 years of service as per provisions of Payment of Gratuity Act 1972 as amended."

Policy for recognizing actuarial gains and losses:

Actuarial gains and losses of defined benefit plan arising from experience adjustments and effects of changes in actuarial assumptions are immediately recognized in other comprehensive income. Risks associated with the plan provisions are actuarial risks. These risks are investment risk, mortality risk and salary risk.

Investment risk

Plan assets comprise funds managed by the insurer i.e. Life Insurance Corporation of India (LIC).

Mortality risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. A change in mortality rate will have a bearing on the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Note: 43 Nature and extent of risks arising from financial instruments and respective financial risk management objectives and policies

The Company's principal financial liabilities are, other than derivatives, comprise borrowings, trade and other payables and financial guarantee contracts. The main purpose of the financial liabilities is to finance the Company's operations and to provide guarantees to support its operations.

The Company's principal financial assets include short terms arrangements, trade and other receivables, cash and short-term bank deposits that derive directly from its operations.

The business activities of the Company expose it to a variety of financial risks, namely market risks (that is, foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The financial risk management for the Company is driven by the Company's senior management subject to necessary supervision. The Company's risk management strategies focus on the unpredictability of the financial environment and seek to mitigate its potential adverse effects on the financial performance of the Company.

The Company's all operating divisions identify the risks as perceived by them and take immediate steps to minimize the impact and at the same time submit a report to the next higher level of reporting.

The Senior Management reviews each of these risks, which are summarised below.

a) Market risk

The Company is exposed to market risk through its use of financial instruments and specifically to currency risk, interest rate risk, credit, liquidity and certain other price risks, which result from both its operating and investing activities.

b) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted. The company is exposed to credit risk from its operating activities (primarily **trade receivables**) and from its financing activities, including, foreign exchange transactions and other financial instruments.

The Company enters into long term contracts with its regular customers thereby eliminating uncertainties also mitigates the risk exposure on high risk customers and avoids any such contracts with them. Further, one of the customers' of the Company forms more than 10% of the Company's total revenues as the Company makes a continuous effort in expanding its customer base. Outstanding customer receivables are regularly monitored and reviewed by the senior management periodically. At 31st March, 2021, the top 10 customers accounted for approximately 61% of all the receivables outstanding. At 31st March, the Company has certain trade receivables that have not been settled by the contractual due date but are not considered to be impaired. The amounts at 31st March analyzed by the length of time past due, are:

	(Amount in Lacs)	
	As at 31st March, 2021	As at 31st March, 2020
More than 180 days	121.72	48.96
Not More than 180 days	2252.49	1334.26
Total (Refer Note. 6(b) & 10)	2374.21	1383.22

c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short term debt obligations with floating interest rates as the company has zero long term debt obligations.

d) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and the Company's borrowings in foreign currency. (Refer Note No. 36 to Ind AS Financial Statement).

No Forward contracts were entered into by the company either during the year or previous years since the company has very minimum exposure to foreign currency risk.

e) Equity price risk

The Company's investments are in listed equity securities. Equity risk is the risk involved in the changing prices of stock investments in the share market. All the investments in the equity portfolio are reviewed and approved by the Board of Directors.

At the reporting date, the exposure to listed equity securities at fair value was **Rs. 9.24 Lacs** (Rs. 5.12 Lacs as at 31st March, 2020).

f) Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed in accordance with the Company's policy. Investments of surplus funds are made by way of fixed deposits with scheduled banks within the limits assigned by the Senior Management.

g) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Accordingly, as a prudent liquidity risk management measure, the Company closely monitors its liquidity position and deploys a robust cash management system.

The company does not have any long term debt outstanding as on 31.03.2021. The Company assessed the concentration of risk with respect to refinancing its short term debt and concluded it to be low. The Board of Directors periodically reviews the Company's business requirements vis-a-vis the source of funding.

The table below summaries the maturity analysis of the Company's Trade Payable, Lease Liabilities on account of transition to Ind AS 116 and financial liabilities except short term borrowing repayable on demand:

(Amount in Laacs)

h) Other risk – Impact of COVID-19

Due to outbreak of Coronavirus (COVID-19) which had been declared as a pandemic by the World Health Organisation and subsequent lock down ordered by the Central and State Governments(s) in India, the manufacturing activities of the Company remained suspended from March 23, 2020 onwards. The Company in compliance with the necessary instructions guidelines, resumed its manufacturing operations from April 27, 2020 in a phased manner, while ensuring health and safety of all the stakeholders.

This situation resulted in temporary disturbance in the economic activities through interruption in manufacturing process, disruption in supply chain, etc. for the Company during the year ended 31st March, 2021. This lockdown has impacted the sales performance of the Company during the first quarter of this year and also resulted in the financial burden for the Company as implementation of Company's green field project (construction of new Plant) came to a halt, although there is

no impact seen on capital & financial resources of the company because the Company has no long term debt and the utilization of working capital is well within the bank limits. Despite all this situation, our Company has earned a higher net profit for the year ended March, 31, 2021 as compared to previous year ended March 31, 2020.

Further the recent second wave of COVID-19 has resulted in partial lockdown/restriction in various states. However, the Company is closely monitoring the impact of the aforementioned pandemic and believes that there will not be any adverse impact on the long term operations and performance of the Company.

However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature, duration and the extent covering almost the whole world. Overall, the balance period of the financial year, of 2021-2022, is likely to be difficult but we do hope the business situation should normalize from the 3rd and 4th Quarter of this year.

Information other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and Cash Flows of the Company in accordance accounting principles generally accepted in India, including Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could

reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
-

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matter communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE-"B" TO INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS TO THE MEMBERS OF MOHINDRA FASTENERS LIMITED, DELHI FOR THE YEAR ENDED 31ST MARCH, 2021

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' Section of Our Report to the members of Mohindra Fasteners Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of MOHINDRA FASTENERS LIMITED, DELHI ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (hereinafter "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing,

issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls, and both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that;

ANNEXURE-"B" TO INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS TO THE MEMBERS OF MOHINDRA FASTENERS LIMITED, DELHI FOR THE YEAR ENDED 31ST MARCH, 2021 (Contd.)

- I. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- II. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- III. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to over financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to these financial statements and such internal financial controls over financial reporting with reference to these

financial statements were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Independent Auditor's Review Report on the Quarterly Unaudited Financial Results for the Quarter ended 30th June, 2021 of Mahindra Fasteners Limited Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.

**To
The Board of Directors
M/s Mahindra Fasteners Limited**

1. We have reviewed the accompanying statement of unaudited financial results of Mahindra Fasteners Limited("the Company") for the quarter ended June 30, 2021 (the "statement"), attached herewith being submitted by the company pursuant to the requirements of Regulation 33 of the Securities and Exchange Board of India (Listing Obligation and Disclosure Requirements) Regulations, 2015 (the "Listing Regulations")(as amended), including relevant circulars issued by the SEBI from time to time.
2. This Statement, which is the responsibility of the Company's management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. Our responsibility is to issue a report on the Statement based on our review.
3. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by The Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether this statement is free of material misstatement. A review is limited primarily to inquiries

of company personnel and an analytical procedure applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results prepared in accordance with applicable accounting standards i.e. Ind AS prescribed under Section 133 of the Companies Act, 2013 and other recognised accounting practices and policies, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015, including the manner in which it is to be disclosed, or that it contains any material misstatement.

5. Emphasis of matter

We draw attention to note 5 of the statement, which describes the management assessment of uncertainties related to Covid-19 and its consequential impact including the recoverability of its assets and operations of the company. Our conclusion is not modified in respect of this matter

Restrictions on Foreign Ownership of Indian Securities

Foreign investment in Indian securities is regulated through the Consolidated FDI Policy and FEMA. The government bodies responsible for granting foreign investment approvals are the concerned ministries / departments of the Government of India and the RBI. The Union Cabinet has recently approved phasing out the FIPB, as provided in the press release dated May 24, 2017. Accordingly, pursuant to the office memorandum dated June 5, 2017, issued by the Department of Economic Affairs, Ministry of Finance, approval of foreign investment under the FDI policy has been entrusted to concerned ministries/ departments.

Subsequently, the DIPP issued the Standard Operating Procedure (SOP) for Processing FDI Proposals on June 29, 2017 (the “SOP”). The SOP provides a list of the competent authorities for granting approval for foreign investment for sectors/activities requiring Government approval. For sectors or activities that are currently under automatic route but which required Government approval earlier as per the extant policy during the relevant period, the concerned administrative ministry/department shall act as the competent authority (the “Competent Authority”) for the grant of post facto approval of foreign investment. In circumstances where there is a doubt as to which department shall act as the Competent Authority, the DIPP shall identify the Competent Authority.

The GoI has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails. The Consolidated FDI Policy, issued by the DIPP, consolidates the policy framework in place as on August 27, 2017, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore the Consolidated FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI. As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue.
